

**Pop, Seal, and Celebrate!**

We're thrilled to announce our partnership with Capabunga – innovative wine accessories invented by former winemakers who truly understand what wine lovers need.

Ever wished for a better way to save that perfect Pinot for tomorrow? Capabunga's ingenious wine caps are the answer you've been looking for. These aren't just bottle stoppers – they're your wine's new best friend. Sleek, simple, and seriously effective, they keep your wine fresh without the awkward cork-jamming dance or refrigerator tetris.

What makes these caps magical? They're completely liquid-tight (yes, you can even store that bottle sideways!), reusable (hello, sustainability), and offer a perfect canvas for your brand to become a permanent guest in your customers' homes.

From their signature CapaBunga® Wine Caps to their clever CapaBubbles® Champagne Stoppers, stylish GlassWhere® Identifiers, and the only ergonomic corkscrew with revolutionary new worm – each product brings together form, function, and fun, making every wine moment just a little bit better.

**Ready to uncork new promotional possibilities?**

**Let's toast to that!**
